

Once-Fil Flow™

Light cured, temporary filling material

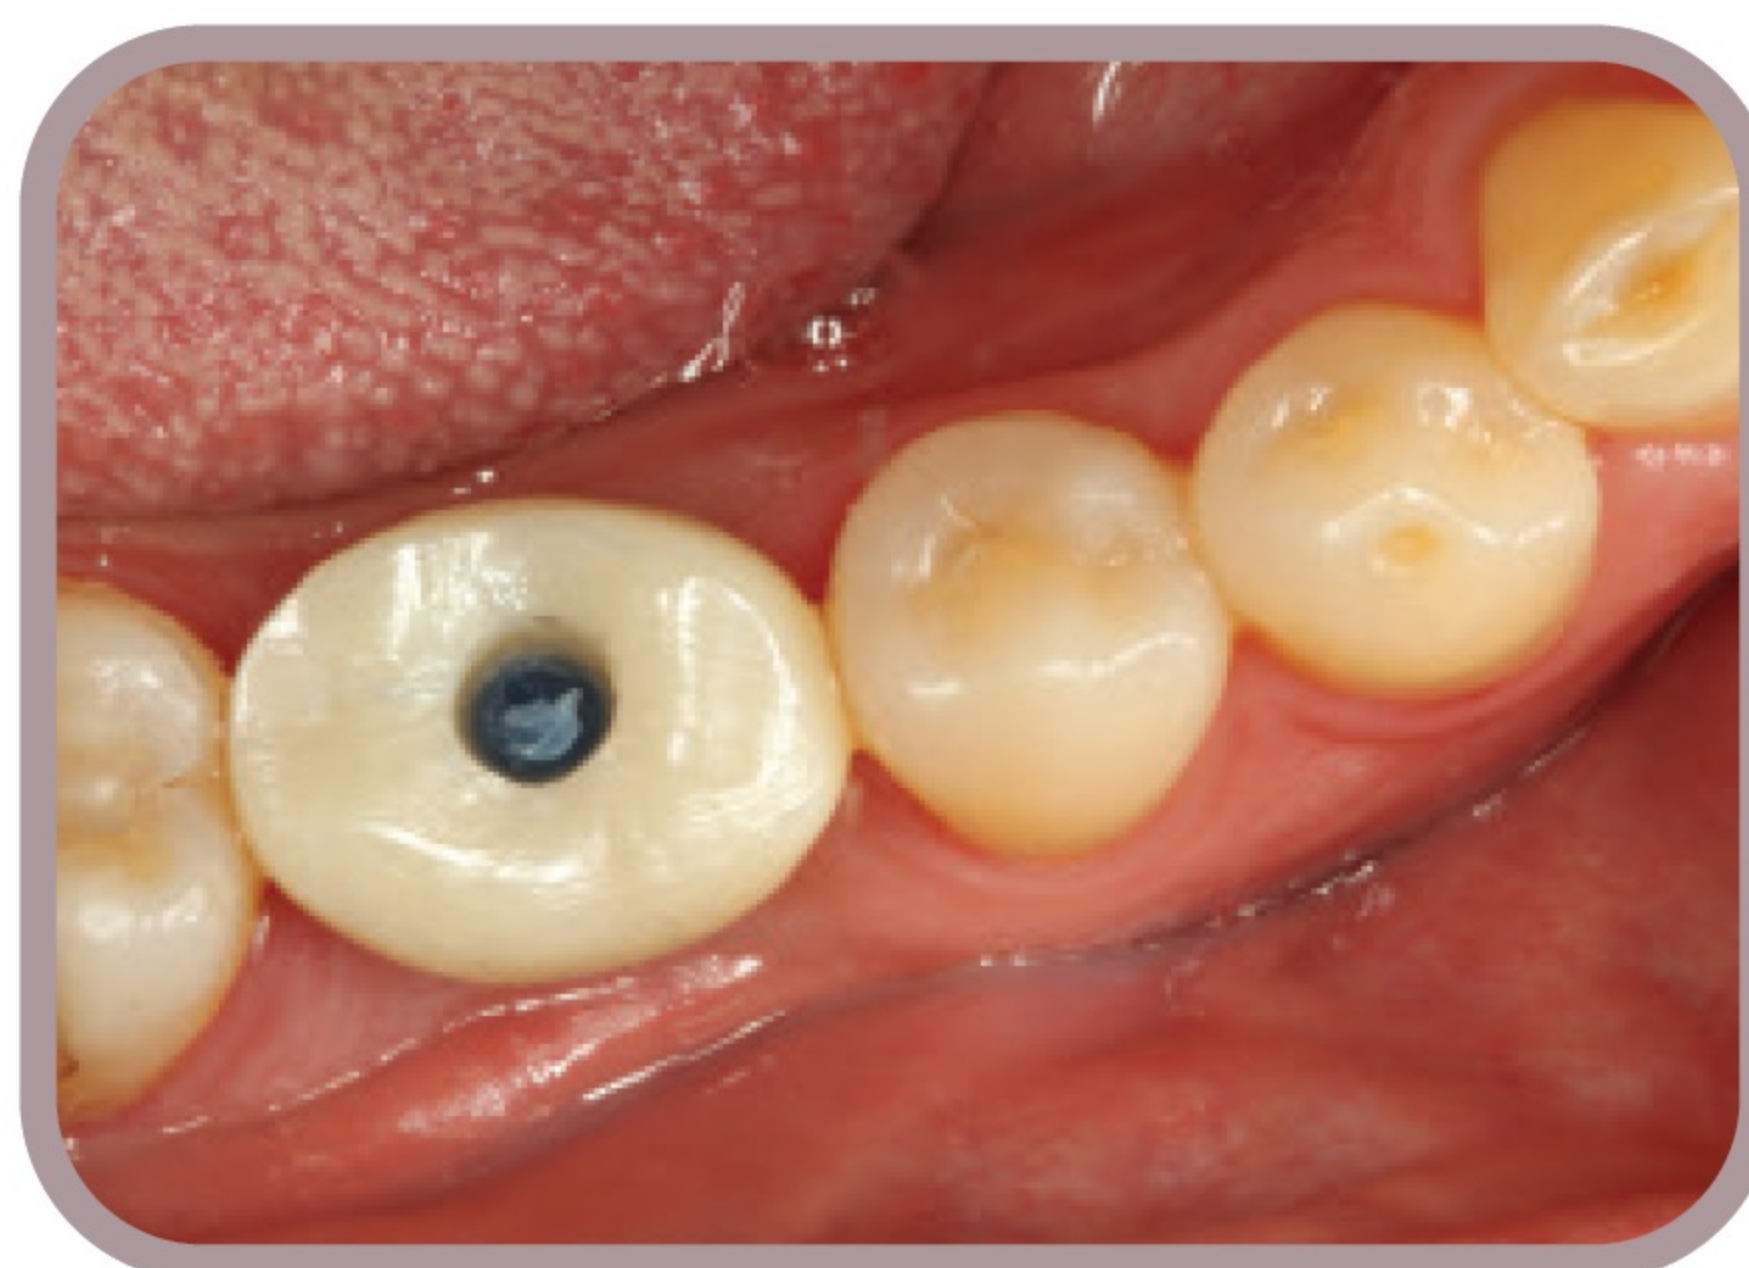

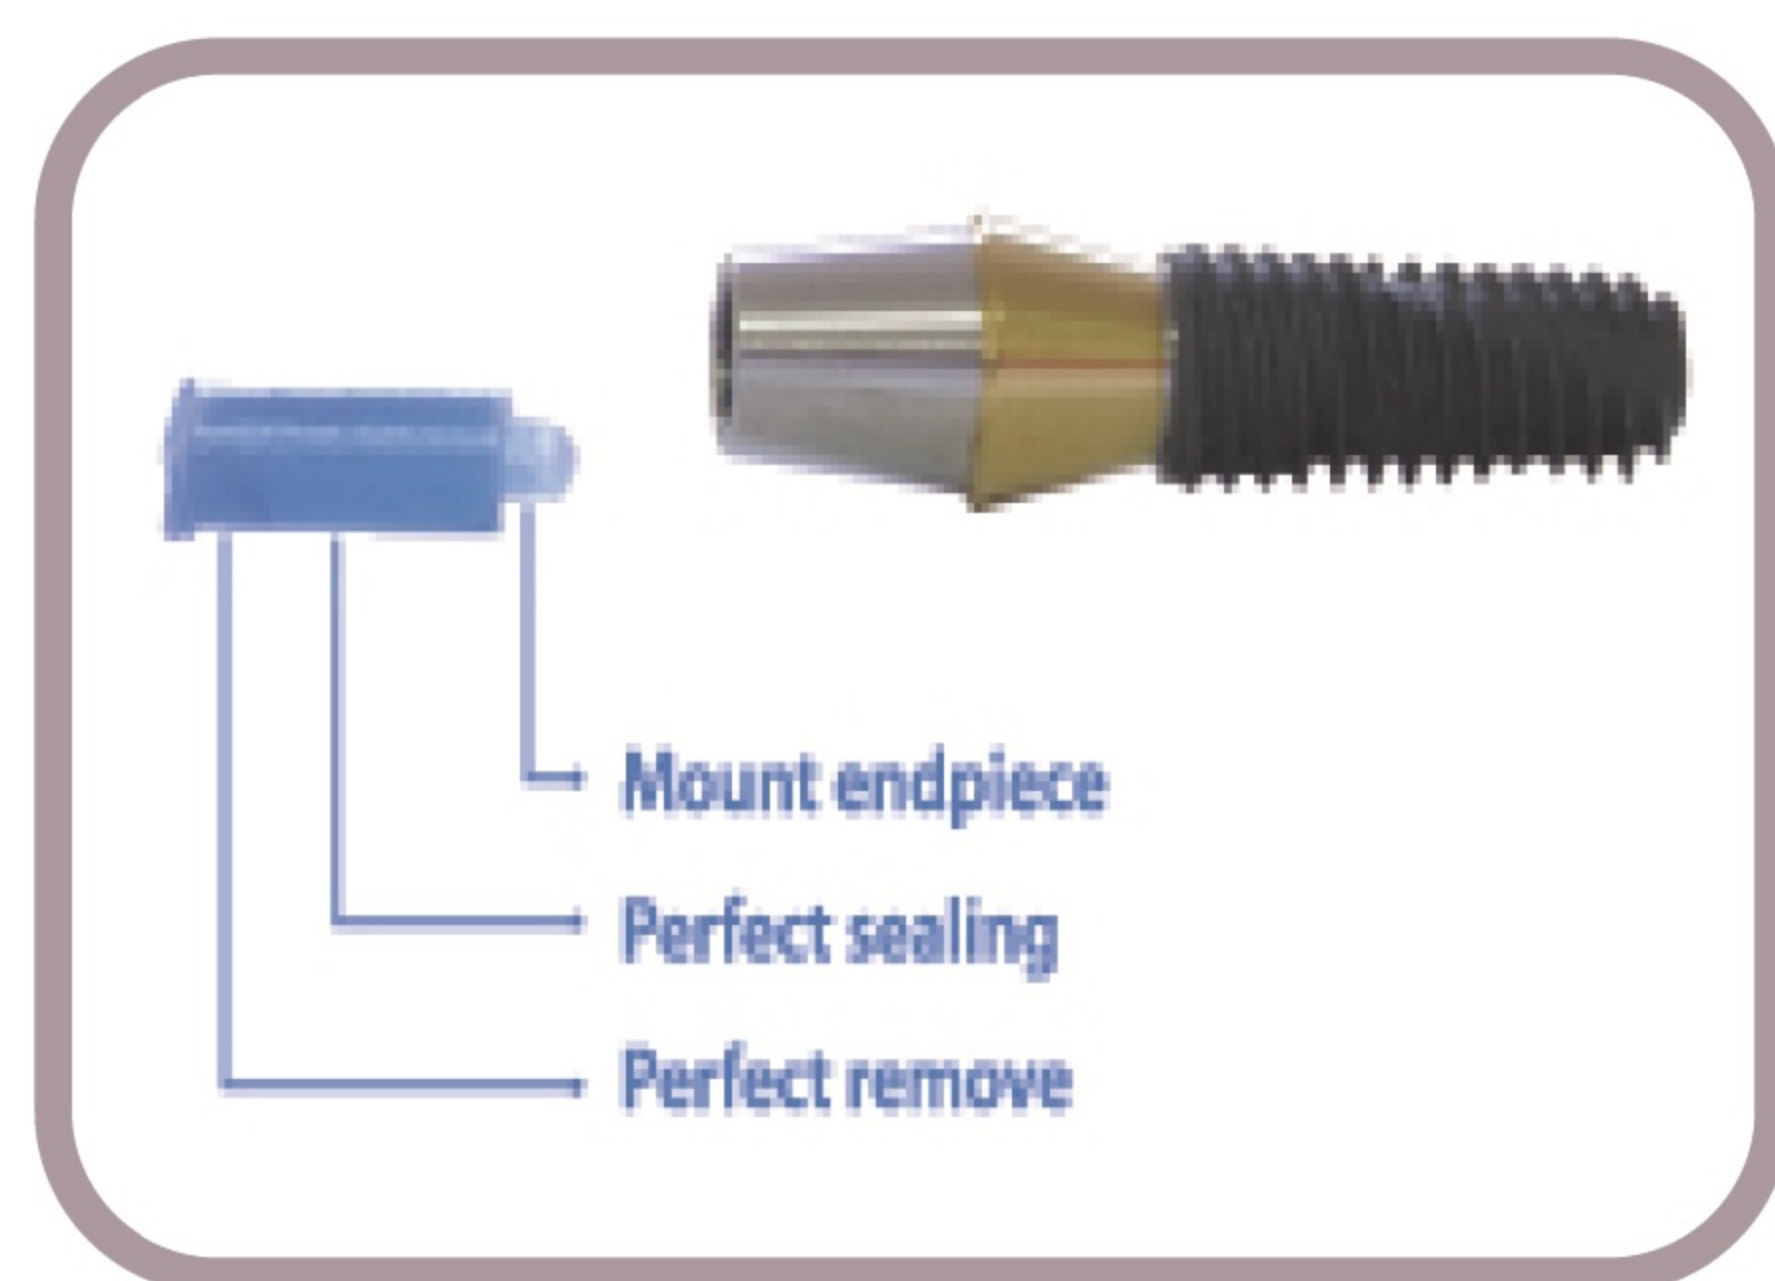

Once-Fil Flow with a great flowability is easily applied to patients. The elastic force and strength is great for sealing the margin. Available to remove at one time and provide the strong masticatory forces.

| SIMPLE | Easy to handle and to remove in one piece

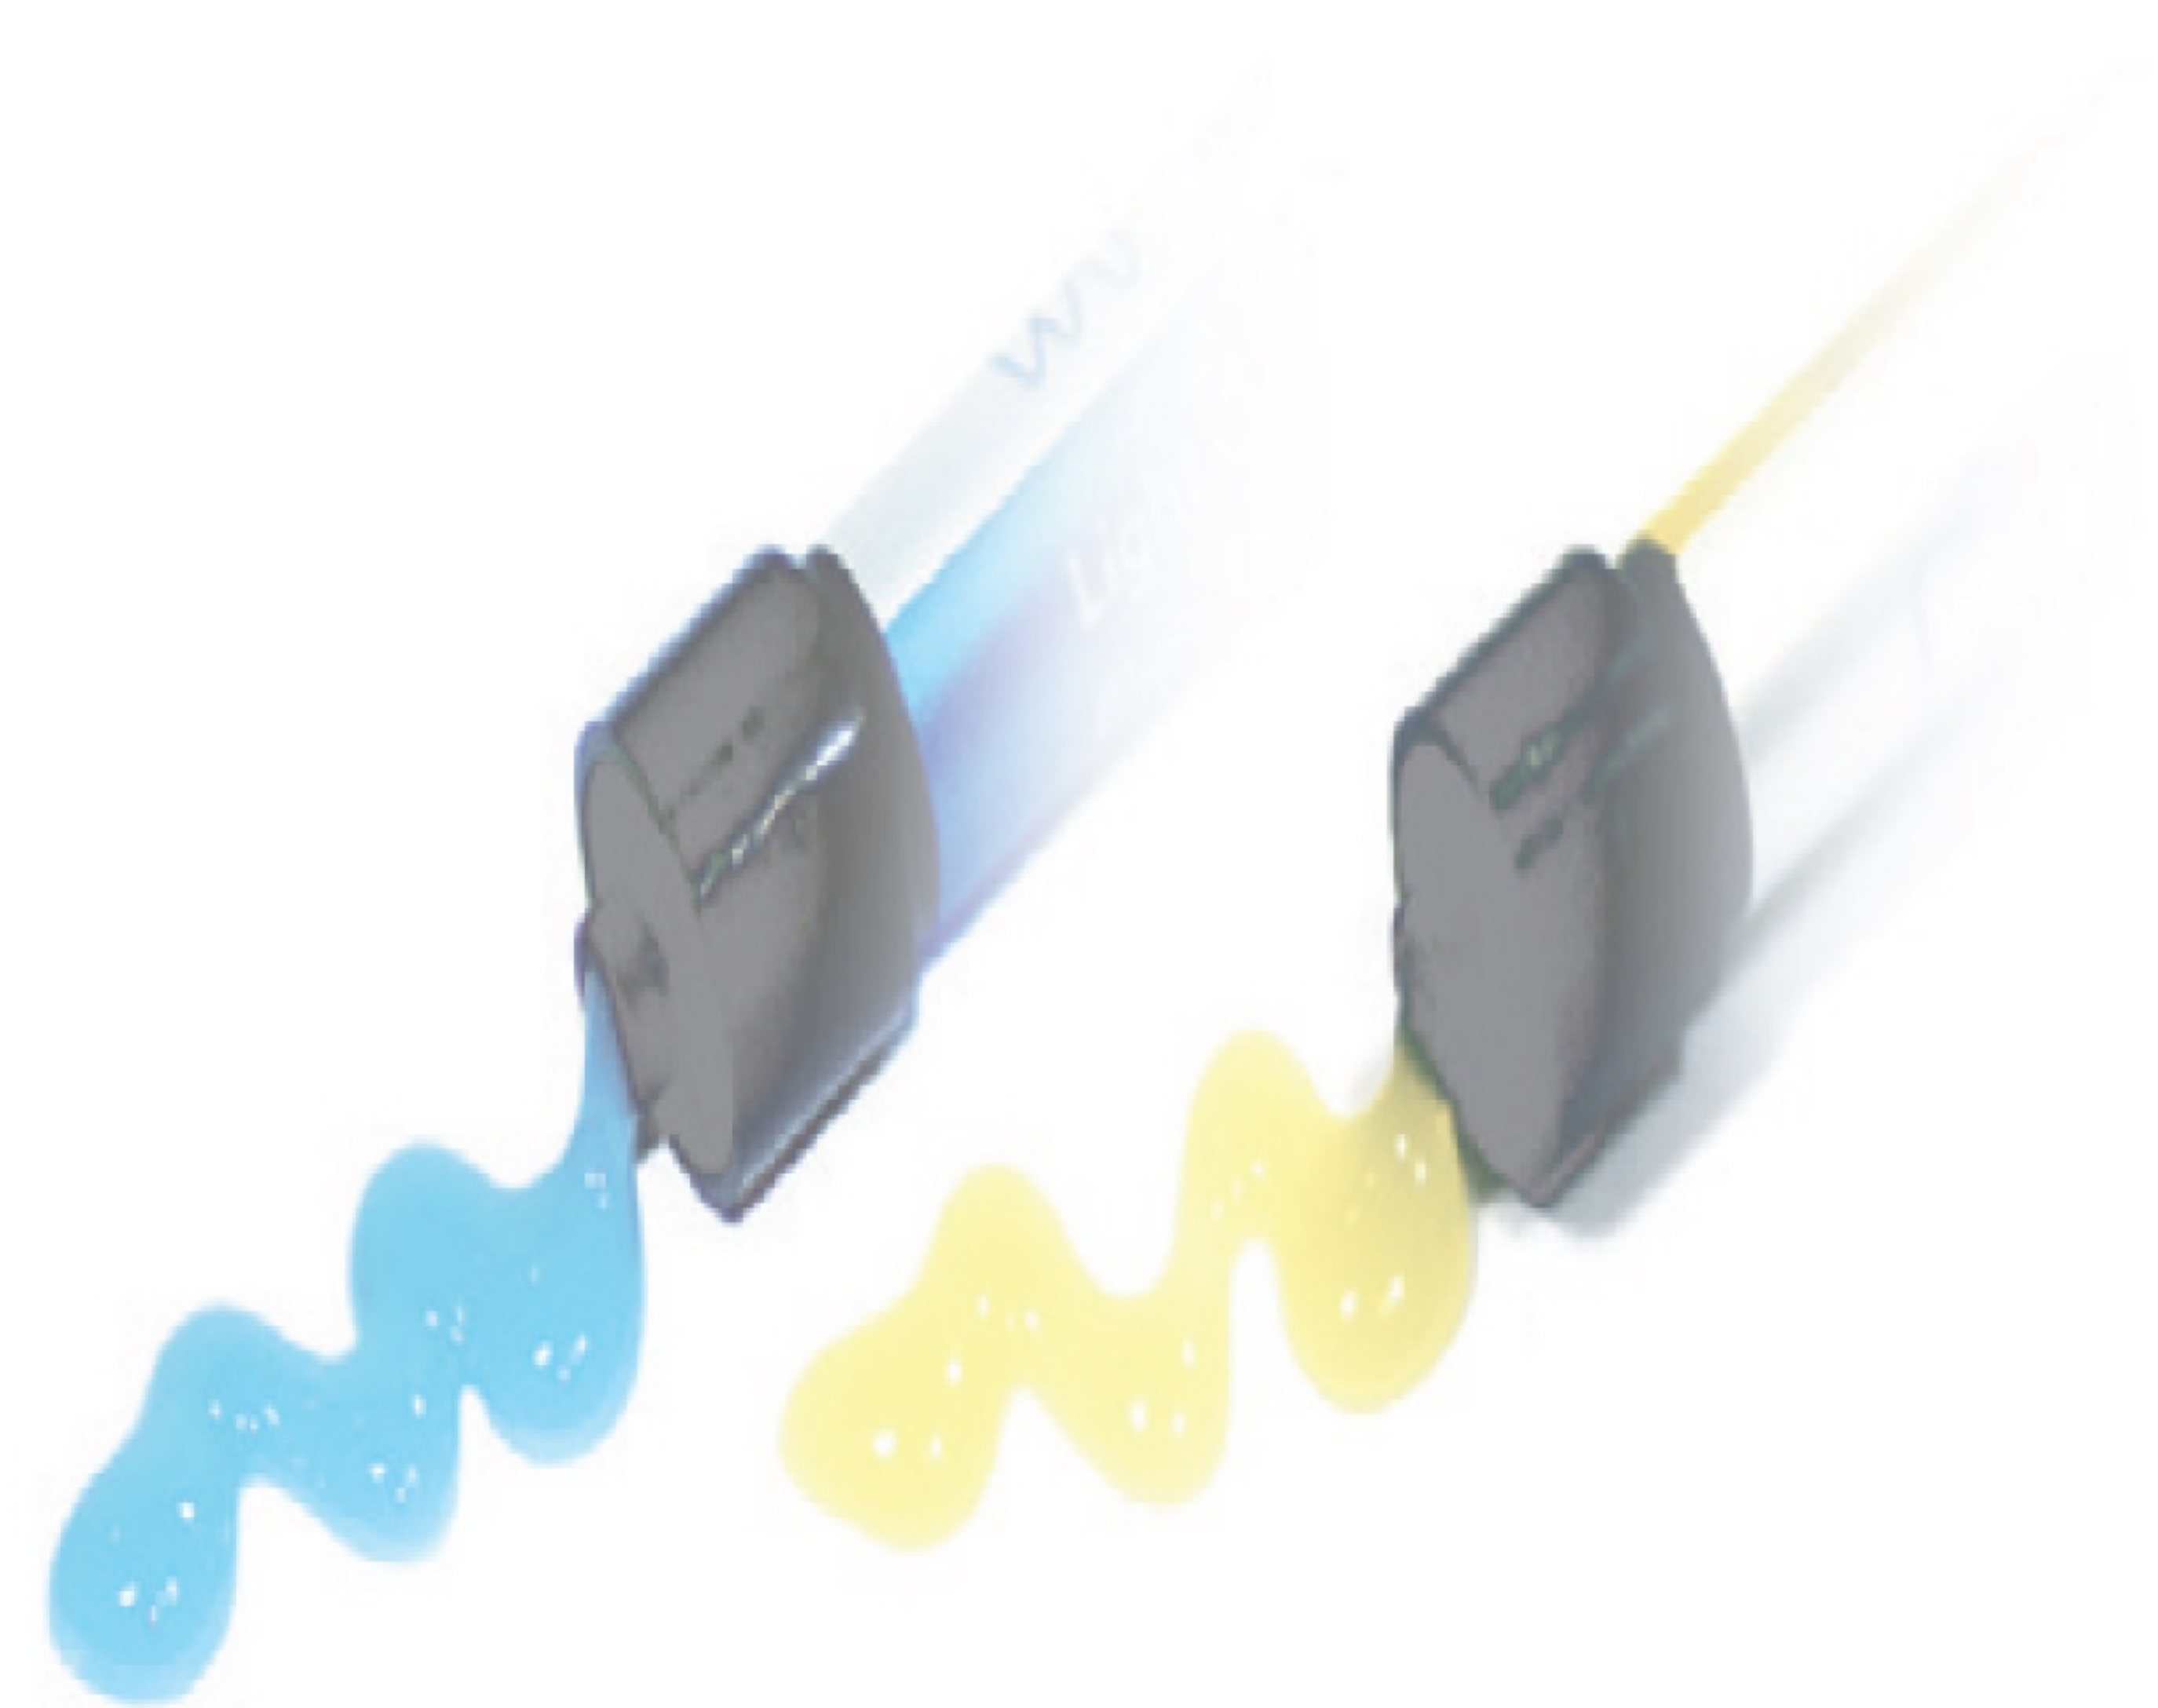

| SPEEDY | Time-saving! Do not using instrument for making occlusion.

| SAFE | Excellent sealing ability

■ Application 1 (Curing time 20~40sec.)

■ Application 2 (Curing time 10~15sec.)

■ Application 3 (Curing time 10~15sec.)
